

Inspire LCMS™

Learning Content Management System

Easy E-learning:

- Development
- Delivery
- Learner Management System

THE PROBLEM

Too many different types of training materials

and learners at multiple locations, all with different schedules.

Training records were difficult to maintain

And the boss wanted answers...

A better way was needed!

Inspire LCMS™

Learning Content Management System

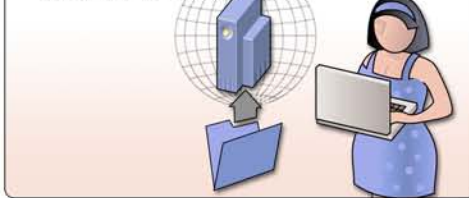

To the rescue!

An affordable way to quickly create and deliver training on line and keep track of learner progress

Creating training is easy. Assemble your content...

...then upload it to the Inspire sever on the Internet

Build pages, chapters and courses using your content and the built in Inspire authoring tools. Add interactions, tests, and rich media like video and audio.

Register your learners. E-mails are sent to them telling them what courses they need to take, and when.

Learners can access the training from anywhere, at any time. Their learning progress is tracked!

Updates are instantly available ...

Now when the boss asks ...

To create, deliver and track your training, the easy way, order Inspire LCMS™ now!
